

Context project:	Programming Life							
Group:	3							
User Story	Task	Assigned To	Estimated effort (1-5) 5 = highest	Priority (1-5) 1 = highest	Actual effort (in hours)	Done	Done by	Actual outcome
<i>Stakeholders need to have assurance of the build quality of the software</i>	Create a draft for the Emergent Architecture Design document	Tom (all)	3	1				
<i>As a user I want to zoom in and out while keeping a constant amount of information on the screen, so I won't be overwhelmed</i>	Make the zoom focus on the zoomed position	Sam	3	2				
	Change the way nodes are positioned, to prevent nodes from jumping on the x axis while zooming.	Sam	1	2				
	Make the nodes their unfolding depend more on the space left on the screen.	Sam	3	2				
<i>As a user, I want an estimation of the remaining loading time, so I can effectively use my time and know if the program is still doing something.</i>	Satisfying load bar	Tom	3	5				
<i>As a user, I want to be able to work with large datasets.</i>	Fix problem with large datasets	Sam	3	2				
-	Prepare presentation for friday	Kasper (all)	2	3				
<i>As a developer, I want to get a good impression of our code quality, so that I can improve our code quality.</i>	Prepare for SIG input	Tom (all)	3	1				
<i>As a user, I want to work with a visually useful and appealing application.</i>	General look and feel of GUI	Kasper	5	1				
	Styling graph	Mathieu	4	3				
<i>As a user, I want to have a clear view of the phylogenetic tree.</i>	Styling nwkw tree	Kasper	2	2				
<i>As a user, I want to deduce helpful information on the genome from the graph</i>	Draw number on nodes, representing something	Boris	1	3				
	Display node count as number on nodes	Boris	2	3				
<i>As a user, I want to view information on nodes in the graph.</i>	Gather information of node when mouseover and/or clicking	Mathieu (Tom)	3	4				
	Display gathered information of node	Mathieu (Tom)	3	4				
<i>As a user, I want to filter my data to view a useful subset.</i>	Fix remove filtered genome from filtered GraphData after filtering.	Boris	2	1				
<i>As a developer, I want to keep track of the current state of the program, so I can better understand what the current state of the program is.</i>	A logger to handle logs and catch exceptions	Kasper	1	5				
<i>As a user, I want to use this program on every OS, so I can use my preferred OS.</i>	Fix: Mac fileselection	Boris (Tom)	2	1
